Collection
2009
made in Germany

Dear customers, welcome to ALPRO!

Treat your feet to a whole new feeling! Whether your job keeps you on your toes all day long or you just want to slip into something comfortable in your free time – hard-working feet simply feel good in ALPRO sandals and clogs.

Our shoes are “licensed by Birkenstock” to ensure your comfort. The anatomical form gives your feet the space

they need for a perfect fit, with special shock-absorbing materials to make every step a relaxing experience. You’ll get through the day safely and enjoyably, wherever your feet may take you.

The ALPRO Soft-Footbed

Slip in, start walking, enjoy.

Originally produced only for professionals who are on their feet all day and every day, our sandals and clogs with Soft-Footbeds are now conquering the leisurewear sector. And that's no surprise, as our footbeds provide beautifully soft comfort from the very first wear. The secret is millions of microscopic air bubbles in the ALPRO-foam material, which

absorb every step in a flexible way. An elastic latex cushion in the heel area intensifies this effect.

Our Soft-Footbeds are anatomically formed. That means they adapt precisely to the shape of your foot. This unique form is "licensed by Birkenstock".

Before physical strain.

During physical strain.

In motion.

Anatomical form
 provides toes with sufficient space and supports balance and foot health.

Deep toe-grip
 encourages toes to make intensive gripping movements and enhances circulation.

Contoured Footbed
 adapts to the shape of your foot with four raised supports.

Deep heel indentation
 keeps your foot safely in the footbed and enhances natural posture.

Selecting the correct length

is just as important as choosing the proper width.

You should have a few millimeters of space in the heel and toe areas.

On no account should your toes and heel touch the footbed rim.

“Made in Germany” – a symbol of top quality

Products made in Germany are valued all over the world for their outstanding quality. The label “Made in Germany” symbolises that excellence.

For ALPRO, “Made in Germany” is both an obligation and a mark of distinction. We produce our sandals and clogs in Germany – and nowhere else: from the footbeds to the uppers, all the way down to the buckles. Our marketing, product development are also run from Germany.

This give us huge advantages. We are directly on site to carry out quality checks, permanently developing our

shoes along with our supply partners and ensuring the high quality level you can always expect from ALPRO.

Our German production is always at the cutting edge, thanks to technological progress and German engineering expertise. We have improved efficiency over the last few years through enhanced process coordination, for example raising production temperature to double our pressing times – all at an improved quality level.

Comfort in
two widths

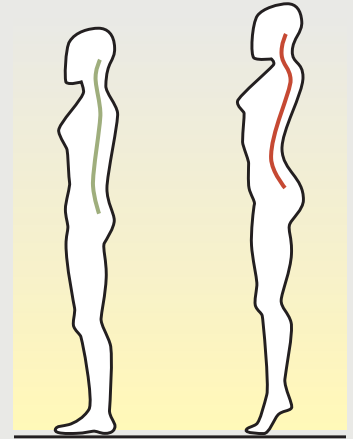

Two-width-system
for perfect fit:

for slim and
slender feet

for regular and
sturdy feet

Give your back a break!

Flat-soled shoes from ALPRO encourage natural posture.

All ALPRO footbeds act as shock absorbers and provide automatic support during walking and standing. Your spine automatically moves into a correct, healthy position.

Safe hold – with heel straps

Sandals and clogs with heel straps are legally required in certain jobs. And that's a good thing too! Individually adjustable heel straps prevent your feet from unintentionally slipping out and provide a safe hold.

TÜV-approved safety – for the highest demands at work and play

Good, effective slip-resistant shoes are essential for safety at work – and at play. Walking and standing safely is vitally important, whatever you're doing.

All ALPRO soles have been tested and approved by the Technical Control Board TÜV Rheinland to comply with DIN EN ISO 13287:2007. This norm requires soles to fulfil at least one of these three categories:

SRA – slip-resistant on ceramic tiles with cleaning fluid

SRB – slip-resistant on steel flooring with glycerine

SRC – slip-resistant on ceramic-tiled floors with cleaning fluid and on steel flooring with glycerine (SRC = SRA + SRB)

All ProFashion models and the new Safe&Clean Clogs are approved for categories SRA, SRB and SRC. The ProClassic models fulfil the norm in category SRA.

In short: with ALPRO, you can walk safe!

natural posture

damaging posture

Anatomically formed – room for your feet!

Pointed, tightly cut shoes don't allow your feet the space they need. The antidote is anatomically formed footbeds from ALPRO. These footbeds are designed to match the natural shape of your foot and provide relaxing comfort.

You can spot this special ALPRO form at first glance: by the mark of distinction "licensed by Birkenstock".
